I am a graduate with a degree in Computer Science, self-motivated, passionate about embracing new challenges, and able to thrive in various situations. With strong problem-solving skills and the ability to work effectively both independently and within teams, I am focused on continuous learning and personal growth. I have a deep interest in digital technology, particularly in web development, design, and architecture. I enjoy combining technical understanding with creativity to deliver innovative and efficient solutions. I am eager to further develop my career in the fields of technology and project management.
