## PROFILE SUMMARY

A Bachelor's degree graduate in Information Systems with a GPA of 3.72. Experienced in IT projects, digital product development, team coordination, and data analysis to support business strategies. Skilled in computer operations and data processing. Adept at working across departments, including IT, HR, and business functions. A person of integrity with strong communication skills, critical thinking, problem-solving ability, adaptability, time management, and capable of working both independently and collaboratively. Excellent in building relationships and public speaking. Willing and ready to be assigned anywhere in Indonesia.

## WORK EXPERIENCE

### PT. Grocee Teknologi Indonesia | Makassar | Front-End Developer Intern

March – July 2023

- Collaborated with cross-functional teams (UI/UX, Backend, and Business) to develop a digital product.
- Conducted UX research that successfully improved user satisfaction based on QA team feedback.
- Contributed to the validation and development of the Minimum Viable Product (MVP), accelerating product development time by 15%.

### PT. Kinema Systrans Multimedia | Batam | Web Developer

August – December 2023

- Developed an internal website using ReactJS and NodeJS frameworks for client needs.
- Led an IT project team of 9 members to oversee and guide the internal website development process.
- Created technical documentation and Standard Operating Procedures (SOPs), resulting in a 30% reduction in data input errors.

## VOLUNTEER EXPERIENCE

### YATC Indonesia | Banda Neira | Volunteer

July 4 – 20, 2025

Contributed to the education division by teaching, mentoring, and designing learning programs for elementary and middle school students in Lonthoir Village, Banda Neira.

## TRAINING EXPERIENCE

### VSGA KOMINFO | Makassar | Associate Data Scientist

March 18 – 23, 2025

Participated in a training program to enhance foundational skills in data and analysis, and completed a competency assessment as part of the graduation requirements.

## PROJECT EXPERIENCE

### IT Course Landing Page | PT. Grocee Teknologi Indonesia

June 5 – 24, 2023

Developed a responsive and visually appealing promotional landing page for an IT course using the ReactJS framework.

### Farm Goods Submission Form | PT. Kinema Systrans Multimedia

August – December 2023

Developed a farm goods submission form system using the ReactJS with MySQL to streamline data management and submission processes.

### Customer Internet Service Data Analysis | VSGA ADS KOMINFO

March 18 – 23, 2024

Analyzed customer internet service datasets using MS Excel and RapidMiner to assess service quality and user satisfaction.

### Movie Catalog Website | Freelance

February – March 2025

Built a movie catalog website using the ReactJS framework with API integration to display movie data such as titles, release dates, ratings, and other relevant information.

### Airline Delay Data Visualization | Freelance

April 1 – 2, 2025

Created a visualization of airline delay datasets using Tableau Public and Excel to present delay patterns interactively and informatively.
